... the best for brushes and brooms

Hot stamp- and labeling machine |

Automatic hot-stamping with foil and labeling machine as an add-on machine to the drilling and tufting machine or as a body feed for the automatic loading of the drilling and tufting machine.

Suitable for brush bodies made of wood and plastic, straight and curved. The automatic control of the process and the machining process, as well as the query of the stamping foil enable a controlled work.

The positions of the embossing stamp and labeler are freely adjustable, as are the dimensions of the brush bodies to be processed.

Depending on the design of the system, brush bodies up to a length of 600mm can be embossed and labeled.

The own developed EBSE-Software for operation and programming of the machine is compatible with Microsoft®.

TECHNICAL DATA

- Feed belt or optional stacking magazine for feeding the brush bodies
- Brush body query
- Heatable foil stamp
- Query stamping foil
- X / Y position of the stamp can be adjusted
- Embossing, labeling selectable, switchable
- Embossing, labeling on both sides, possible (option)
- Position of label adjustiere
- Label dispenser can be rotated 90 °
- Max. dimension of the brush body 240x78x30mm (L x W x H)
- IPC control with 12" touch screen
- Cycle time 720pcs per hour
- Conveyor belt for returning the brush bodies (optional)
- Handling for further processing (optional)
- Version with branding stamp (optional)
- Embossing stamps convex, concave available (optional)

ELECTRIC	PNEUMATIC	DIMENSION	WEIGHT
3x400V / 50-60Hz 3KW / 16A	max. 6 bar	3,00x1,70x0,60m (LxHxW)	450kg

INNOVATIONS & ADVANTAGES

- **ROBUST MACHINE DESIGN**
enables high quality and long life
- **REAL-TIME CONTROL BY ETHERCAT COMMUNICATION**
provides offline-operation in Industry 4.0-Mode.
- **SERVOMOTORS WITH ONE CABLE TECHNOLOGY (OCT)**
minimizes waitings and service costs.
- **ERGONOMIC STRUCTURE**
for the best working condition
- **EASY TO USE AND MAINTENANCE**
we build machines for the worker
- **24 MONTHS GUARANTEE**
twice as long as the market.
- **100% QUALITY ASSURANCE CAUSE OF MADE IN GERMANY**
Ebser produces the machines completely in Germany.
- **LIFELONG HOTLINE-SERVICE FREE OF CHARGE**
direct, personal contact to the operator or experts.
